

# Community Health Partners <sup>SM</sup>

PHYSICIAN HOSPITAL ORGANIZATION

## The Clinically Integrated Network—CIN

**Month of June:**

National Fresh Fruit & Vegetables

National Camping Month

National Country Cooking Month

National Dairy Month

As of May 2017, we are in the next phase of the accreditation process. The URAC team will be onsite at Community Health Partners June 21 and 22 to conduct interviews and file reviews. This desktop review is to demonstrate compliance with the standards from the date of our application was submitted. Community Health Partners is working with PHO board members to prepare for the onsite visit. The CIN has established a Finance and Contracting Committee and is working on a Cigna Collaborative Accountable Care Program called a CAC. This contract that will be presented the CHP primary care physicians in the near future.

## Technology Study via Survey

INSIDE THIS ISSUE:

CIN	1
Technology Study	1
CommonWell	1
Blue Zone Project	1

Community Health Partners is conducting a technology study via survey monkey regarding your EMR system. This is a follow up to a survey that was done in 2013. This technology study helped us provide relevant information to new practices and practices moving to electronic system. This information will also help us when we move forward with CommonWell. The more information that we have will allow us to make informed decisions about future technology and allow us to communicate better with our providers. If you would like a copy of the study, please contact our office at 239-659-7700.

**CommonWell:** CommonWell is a not-for-profit trade association dedicated to achieving cross-vendor interoperability that assures provider access to health data regardless of where care occurs. Members believe that provider access to this data must be built into health IT at a reasonable cost for use by a broad range of health care providers and the people they serve. Updated information on the Commonwell Project can be found online at the below site:

<http://www.commonwellalliance.org/>

**Blue Zone Project:** A vital part of Southwest Florida's well-being improvement initiative, Blue Zones Project encourages changes to our community that lead to healthier options. When our entire community participates - from our worksites and schools to our restaurants and grocery stores - the small changes contribute to huge benefits for all of us: lowered healthcare costs, improved productivity, and ultimately, a higher quality of life. **Community Health Partners is working towards becoming a Blue Zone worksite. If you would like more information regarding the Blue Zone Project. Please visit the website below for additional information.**
